Printed above is just *one* of a few thousand calculations (computer programs) done each month on each UP Network Associate account. (This single calculation is used to filter the first three ranks and determine which classification they qualify in).

The UP Network Computer Complex makes this *easy for you* because it manages these thousands of calculations each month. This computer complex insures that UP Network Associates, with UP Network Administration, are **paid the highest amount possible**.

Note: Some people have tried to operate their business without using the UP Network Computer Complex. Although they may have had some success, these individuals usually always lose many Millions in payout, based on what they would have received by using UP Network Administration.

Remember: UP Network Administration and the UP Network Computer Complex were designed with one purpose in mind ...

TO INCREASE THE AMOUNT OF MONEY *PAID TO YOU!!!*
